PROFESSIONAL SUMMARY

Results-driven Data Analyst and Business Analyst with a B.E. in Computer Engineering and hands-on experience in customer data analytics, business intelligence, and CRM-driven decision-making. Proficient in Python, SQL, Power BI, Tableau, Excel, and R for end-to-end data pipelines — from ingestion and cleaning to visualization and stakeholder reporting. Experienced in customer segmentation, KPI dashboard development, and delivering actionable insights to leadership for critical product and business decisions. Strong critical thinking and data storytelling skills with proven ability to articulate insights clearly across verbal, written, and presentation formats. Seeking a Data Analyst role to drive measurable outcomes in a fintech or lending environment.

TECHNICAL SKILLS

Languages: Python, SQL, R

Frameworks: Pandas, NumPy, Seaborn, Matplotlib

Tools: MySQL, Excel (Advanced), Power BI, Tableau, PowerPoint

Analytics: Customer Segmentation, RFM Analysis, EDA, Statistical Analysis, Data Storytelling

Soft Skills: Critical Thinking, Problem Solving, Communication, People Management, Analytical Thinking

WORK EXPERIENCE

Business Development Executive (Data & Analytics Focus) | LaunchEd Global Pvt. Ltd. *Jan 2026 – Present*

- **Customer Pipeline Analytics:** Analyzed CRM pipeline data to identify bottlenecks and optimize client outreach workflows, increasing partnership sign-ups by 18% within Q1 through data-backed decision-making.
- **KPI Dashboard Development:** Built performance tracking dashboards to monitor sales funnel KPIs, articulating insights to leadership and improving conversion rates by 12%.
- **Behavioral Analytics:** Led data-driven lead-generation campaigns using behavioral analytics and customer segmentation, boosting prospect engagement by 25% while liaising cross-functionally with stakeholders.

Data Analyst Intern | PREPCA

Jan 2024 – Jun 2024

- **Data Quality & Pipeline:** Analyzed and cleaned large datasets using SQL and Excel to ensure data accuracy, consistency, and reliability — improving reporting readiness by ~30%.
- **Dashboard Reporting:** Developed interactive Power BI and Excel dashboards tracking key performance metrics, enabling data-driven decisions for leadership.
- **Exploratory Analysis:** Conducted EDA to identify trends and behavioral patterns in customer data, delivering structured analytical reports and actionable insights to stakeholders.

PROJECTS

Customer Credit & Sales Behavior Analysis

Mar 2025

- Built end-to-end customer analytics pipeline using Python (Pandas, NumPy) and SQL to process large-scale retail sales datasets — methodology directly applicable to asset-backed lending customer data.
- **RFM Segmentation:** Applied Recency, Frequency, Monetary segmentation to identify high-value customer cohorts, uncover behavioral purchase patterns, and predict churn indicators — directly aligned with customer lifecycle analysis in fintech.
- Developed interactive Power BI dashboards with 10+ KPIs visualizing sales trends, churn signals, and revenue concentration by customer segment for leadership decision-making.
- Delivered data-backed recommendations for targeted strategies, projecting 15–20% improvement in customer retention.

Walmart Retail Sales Analysis

Sep 2024

- Built end-to-end retail analytics pipeline using Python and MySQL, processing 100K+ sales records from ingestion to analytical querying.
- Cleaned and transformed raw sales data using Pandas, resolving missing values and inconsistencies to improve data quality by ~30% for reliable analysis.
- Executed 25+ advanced SQL queries to uncover store-wise performance, seasonal demand trends, and structural insights — enabling 10–15% potential improvement in inventory planning.

EDUCATION

Sinhgad Institute of Technology, Lonavala

Lonavala, Maharashtra

Bachelor of Engineering — Computer Engineering

Dec 2021 – Jul 2025

POSITIONS OF RESPONSIBILITY

Technical Event Organizer | College Tech Club

2022 – 2025

- Organized 5+ coding workshops and technical seminars engaging 200+ students; tracked attendance and feedback data to drive continuous improvement.
- Increased event participation by 30% through data-informed outreach strategies and structured post-event analysis.

Participant | ACM Student Chapter

2022 – 2025

- Competed in 3 hackathons, delivering analytical and technical solutions under time constraints with cross-functional teams.

CERTIFICATIONS & ACHIEVEMENTS

- Data Science Certification – Acmegrade (Python, EDA, Statistical Analysis, Machine Learning Fundamentals)
- Introduction to Career Skills in Data Analytics – LinkedIn & Microsoft (Excel, SQL, Data Storytelling, BI Basics)
- Java Full Stack Development – QSpiders
